

Daily AP Review Online Classes

Beginning on Wednesday, March 25, you'll have access to free, live AP review lessons, delivered by AP teachers from across the country. The lessons will focus on reviewing the skills and concepts from the first 75% of the course.

These mobile-friendly classes are:

- Will be recorded and available on-demand so teachers and students can access them any time.
- Not dependent on current AP teachers continuing instruction. We know many AP teachers now face challenges that would make that impossible.
- Will focus on reviewing the skills and concepts from the first 75% of the course. There will also be some supplementary lessons including topics from the final 25% of the course.

AP Online Classes Schedule

We recognize that the digital divide could prevent some low-income and rural students from participating. Working with partners, we will invest so that these students have the tools and connectivity they need to review AP content online and take the exam. If your students need mobile tools or connectivity, you can [reach out to us directly to let us know](#).

To access the live classes and recordings, visit youtube.com/advancedplacement.
