Recipe for Revolution

Translate your knowledge of the causes of the American Revolution into a recipe!
Create a recipe that reflects the "ingredients" that resulted in the war.

Your recipe should include the following 3 sections–

- A list of at least **10 ingredients** (Acts, documents, actions, incidents, speeches, etc...)
- **Process:** The steps in preparing the recipe, DESCRIBING the process –think chronologically and the degree of importance.

Section 1: Ingredients

- List ingredients with the proper measurement reflecting the importance.
- You should **NOT** have the same measurement for any two ingredients.
- The "ingredients" should reflect the **MOST IMPORTANT** acts, policies, or ideals that caused the revolution.

Section 2: Process

- The first sentence should explain the ingredient, the second sentence should explain how this caused/or contributed to revolution.
- In other words: describe what happens when the "ingredients" are added - how did this change the recipe... how do these ingredients cause revolution?
- Simply stating "first add this, then add that" is **NOT** acceptable.
- **USE cooking language to describe the process** (Check out a cookbook or online recipe for reference)
 - Start with
 - Stir In / blend / whisk
 - Use measurements: cup, tablespoon, tsp
 - Add a heaping amount of
 - Sprinkle / dash
 - Bake at

IMPORTANT TO REMEMBER:

- ***This reflects your knowledge of the causes of the American Revolution – use FACTS!!!***
- ***Think of proportions*** – if something was an important part of the Revolution then it should be a main ingredient – something minor should reflect less of the ingredient used.
- Have fun with this and be creative, simply stapling papers together is not enough!!!! This is not a term paper/essay, it doesn't need to be complicated or work intensive, BUT I am looking for some CREATIVITY.
- 10 ingredients MINIMUM
- Process of recipe accurately reflects Revolution (minimum of 20 sentences)
